Strong Plants on Some of the Newer Varieties at One-Half Price of Bulbs

Growing the Dahlia

Location: Open, sunny or partial shade. Cultivate the soil thoroughly. Plant from May 1st to June 20th. Dig a hole one foot deep. Put in shovel of manure or other plant food. Cover with an inch of soil. If stake is to be used set in. Plant bulb four inches deep, horizontally, and cover. Cultivate at least once a week. Do not water until the plants are well above the ground. When the buds appear water the plants thoroughly once or twice a week. Apply any good fertilizer every ten days, stirring the soil lightly after. To obtain extra large flowers, disbud freely, leaving only a few buds and branches on each plant.

List of Dahlias

Alexander Pope, I. D., Shaggy Red	\$.50
Alice Whittier, S. C., Primrose Yellow50
Ambassador, C. R. C., Yellow Buff50
